

Biomarker Review Process

Heather Kincaid

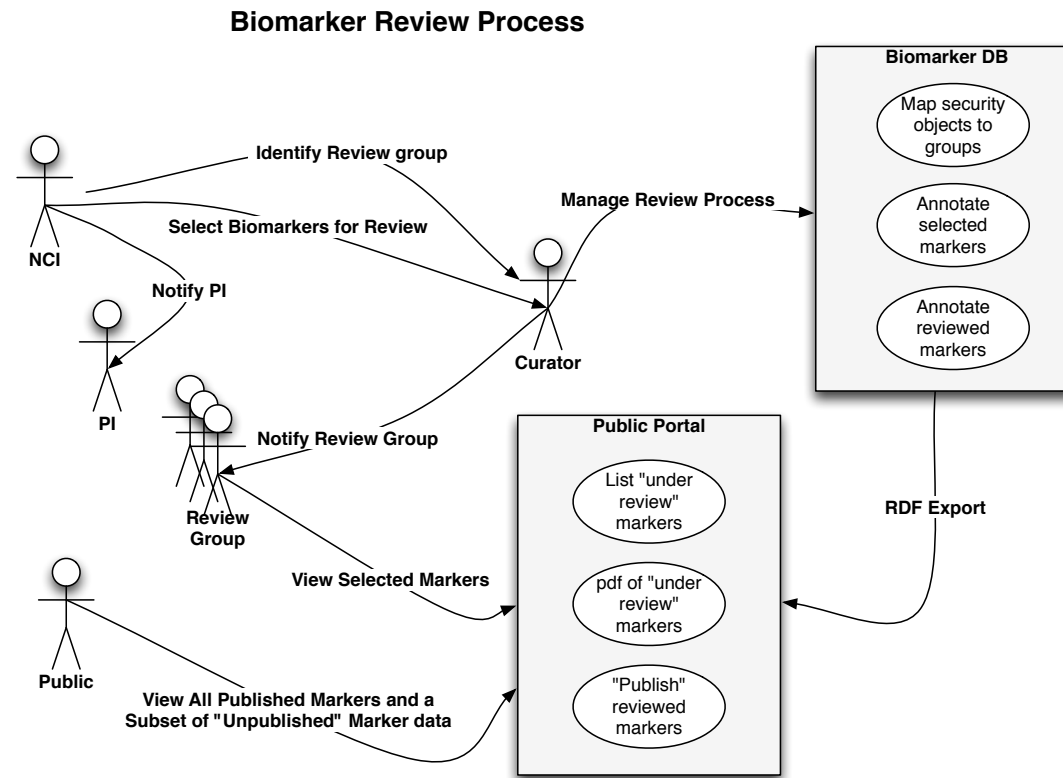

Outline

- Peer Review
- Secure Access to Data/Data Access Policies
- Publishing of Data
- Short Term Goal
 - Content Review of Biomarkers at March Steering Committee Meeting
- Discussion and Questions

Peer Review Process (StrawMan)

- Reviewers Security group (edrn.review.0309) is populated with the March review committee:
 - Bill Bigbee
 - Bill Grizzle
 - Tony Hollingsworth
 - Laura Esserman
 - Jeffery Marks
 - Kristen Chambers (chair and curator)
- NCI select markers for review and notify PIs
- Curator maps objects in the bmdb to the appropriate group(s)
- Allow reviewers to login to Public Portal and view all biomarkers flagged in BMDB as “Under Review” and “Private”
- Provide reviewers with pdf for each biomarker in the review.
- Provide reviewers with a review worksheet.
- Chair compiles comments and reconcile any liens
- After review markers set to “Accepted” and “Public” and can now be viewed without a login.
 - Exceptions to this will be handled after further discussion. For example, “Accepted” and “Private”.

Biomarker Review Process
